Platinum Voice Solution

Product Information

Vox Datapro's corporate voice solutions offer competitive rates on cellular, national, international, local inter-branch and inter-community calls. Using leading Voice over Internet Protocol (VoIP) technology, Vox Datapro's offering ensures that you don't have to compromise call quality to enjoy reduced telecommunication costs. Our unique billing methodologies and rebates also offer considerable cost savings for your business.

Features

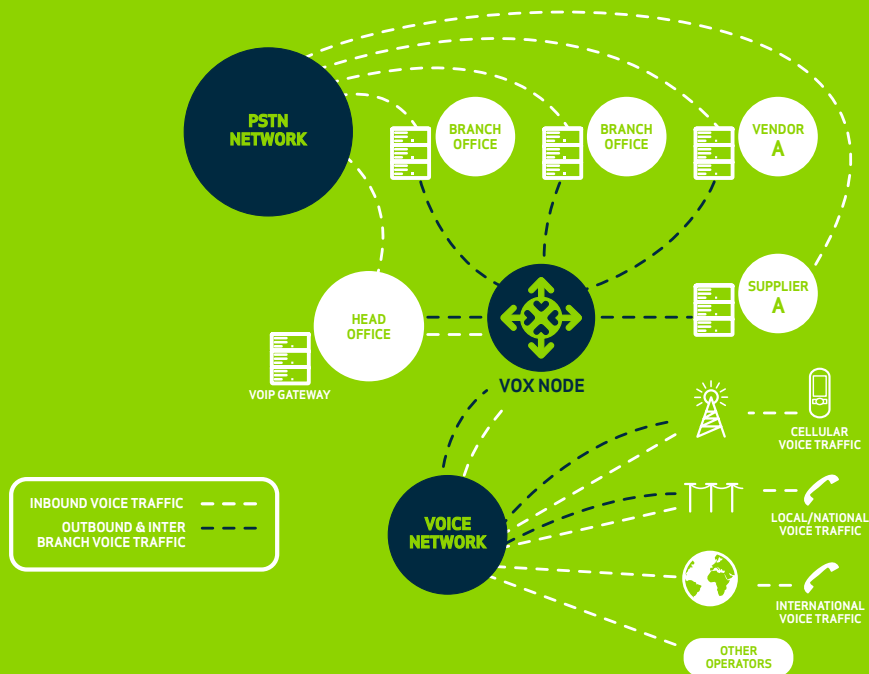

- The use of carrier-class equipment, ample bandwidth and direct interconnects with all major telecommunication companies ensures consistent access and high-quality calls
- Inbound and outbound services are offered on international, local, national and cellular networks
- Remote service management of your call route and gateway equipment ensures quick response and fault resolution times

Benefits

- Reduced telecommunication costs
- International and local connections sourced from multiple suppliers to ensure maximum reliability

Options

Providing the highest call quality, this solution is run over a fibre network and provides an average saving of 20% compared to current market rates. Existing number ranges can be retained and additional loyalty discounts are offered. Incremental or per second billing options are available. Provides guaranteed service levels with industry-leading Service Level Agreement (SLAs).
